

SIMONE MANUNZA

THE NEW ALBUM MOTIVI FAMILIARI IS ON SALE ON BANDCAMP

A project largely based on Italian songs. From Pop music to Film music and a touch of Italian Opera!

Beautiful melodies arranged in a contemporary setting for Jazz Trio with some Soundscapes evocative of Italy and a strong personal band sound!

Very well received from listeners that show great appreciation for the repertoire and the Trio ability to connect with audiences.

These are definitely songs that you won't hear often in a jazz set in the UK!

Part of the repertoire are pop songs, internationally well known and some hidden gems, which maybe less familiar for a UK audience. An aria from Puccini's Tosca, E Lucevan Le Stelle, some film music from Ennio Morricone and Simone Manunza's original compositions.
