

"Manunza can be deep and original in his style, with knowledge of the great masters of the jazz Guitar"

Guido Michelone, MUSICA JAZZ (Italian most important and long lived Jazz magazine)

"Expect contemporary pop songs, arias from the operas, and music from the cinema. This is not just jazz; it's Simone Manunza's jazz. He's one of our own, courtesy of Italia." - Steve Bewick, Hot Biscuits jazz podcaster.

"Manunza's compositional ability and performing verve particularly stand out. Moving within typically mainstream coordinates, he displays a dynamic and self-confident streak" - (Andbar, Andrea Baroni, Tracce di Jazz)
